FIRST INTERNATIONAL MEETING OF LAPAROSCOPIC GASTRIC PLICATION

It is an honor for Bellvitge University Hospital to hold this First International Meeting of Gastric Plication. This is the first time that worldwide experts of this new procedure will put together their experience and knowledge.

There will be 5 live cases to provide the most relevant tactical and technical tips of the surgery. We will also have a fully robotic bariatric procedure with the Da Vinci Surgical Device.

At the end of the summit, the experts panel will propose a consensus report to be sent to all the Bariatric Societies worldwide.

08.00 h. Welcome

Medical Director

08.15 h. **Session One: Live Surgeries**

Chair: Carlos Masdevall Noguera

Moderators: Ali Fardoun
Mario Nora

Case 1

Almino Cardoso Ramos

Case 2

Mohamed Talebpour

Case 3

Phil Schauer

Case 4

Martin Fried

Case 5

Jordi Pujol

13.00 h. Lunch

14.00 h. **Session Two: Understanding the LGCP**

Chair: Antonio Torres García

Moderators: Felipe de La Cruz Vigo
Amador Garcia

My history with gastric plication

Mohamed Talebpour

The science behind plication

Jason Harris

Adequate patient selection
